## INSTRUCTIONS

This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated.

This form must be filed and approval received before abandoning procedures are commenced. A log of the well must be filed with any notice of abandonment. Proposal to abandon a well (on this form), and subsequent reports of abandonment (Form GSB-7) should include such special information as is required. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size and method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.

Send completed form(s) to:
